Description

Eposeal is a Root Canal Sealing Material based on epoxy resin and tri-calcium phosphate

Indications:

Root canal sealing using gutta purcha or silver points

Product benefits:

EpoSeal can be used together with gutta percha or silver root canal points

It can be used for all established and more recent root canal sealing techniques

It is also suitable for the single point method, thermoplasticize method and all condensation techniques

During root canal re-treatment if EpoSeal is used in combination with G.P points the root canal filling can be removed easily

Packaging:

Manual Mix : 1 x 9g Base Paste

1 x 4.5g Catalyst Paste

1 x Mixing Pad

1 x Instruction Manual
